

Dan's Tire and Auto is proudly hosting our...

Free Women's Car Care Clinic

We invite you to join us for an evening of education and empowerment.

It is our great honor to host this car care clinic which will take the fear and guess work out of being a female motorist. While we can not make you into an automotive expert in one evening, we can provide you with some basic knowledge about your vehicles, show you what to do in an emergency and help to prevent you from being ripped off. Many women feel scared and confused when it comes to their vehicles. Everyday we hear the same questions and concerns. This evening is meant to address those issues and demystify automotive care.

There are no catches, no gimmicks and no sales pitches.

Here are some topics that we'll be addressing:

- *How and when to check engine oil and fluids.*
- *What warning lights mean and how to address them.*
- *The basic components of the engine system.*
- *How to change a flat tire.*
- *Understanding the braking system.*
- *What to do if you are in an accident.*
- *How to tell if you are being ripped off.*
- *... and much more.*

There will be an open Q & A session, refreshments and gift bags provided.

We will be joined by a representative from The Genesee County YWCA to discuss the growing problem of Domestic Violence.

The YWCA provides support, assistance and advocacy to women and children who are victims of abuse. We'll be accepting donations to help support this organization and spread awareness.
